Article 27-(By Petition) This article was indefinitely postponed to call upon the Governor and Executive Council for a Special Session of the Legislature for the sole purpose of preventing the imposition of huge cost increases in electric rates resulting from the Seabrook Nuclear Power Plant.

Article 28-Voted to authorize the Selectmen to sell to Harold E. Plante for the sum of \$500. plus any expenses incurred by the town, a certain parcel of land known as the 5 acre Bowker lot located on the Richmond Road.

Before the meeting adjourned, Mr. Edward Saari presented a written petition to the Selectmen from residents on Fullam Hill Road concerning the lack of fire protection to them.

Charles Kenison made a motion to have the building Committee continue for another year.

Meeting adjourned at 9:44PM. All elected officials were sworn in as by law prescribed.

Respectfully submitted,

SPECIAL TOWN MEETING

TOWN OF FITZWILLIAM

NOVEMBER 7, 1984

The meeting was called to order by Moderator, William Prigge at 7 PM. The Article was read by the moderator and discussion followed, with the final result:

Article I - Voted to authorize the Moderator to appoint three persons to represent the Town during regional discussion relative to the establishment of a Solid Waste District as outlined in RSA 53-B:1.

Respectfully submitted,

Jane R. Wright

REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen would like to express their appreciation to all those who served the town during the past year.

Renovation projects have continued in the town hall. The kitchen and toilets received a fresh coat of paint, and new floor coverings. In addition, a new ceiling was installed in the kitchen, and new curtains in the toilets. We are requesting funds to repaint the upper hall during 1985. We are also planning to redecorate both the selectmen's office and the town clerk's office. We hope you'll take time to admire what has been accomplished, and let us have your suggestions for future projects.

The installation of the new sewage system for the town hall/library complex was held up last year due to problems in obtaining the necessary state approval. The permit to construct has been obtained, and we will proceed with the project during 1985.

The board has discussed the feasibility of computerizing many of our records for several years. We are convinced that a computer will eliminate a large part of the purely clerical work now necessary in the conduct of town business. In addition, it will add a valuable management tool for future years. We have considered owning the hardware versus contracting out the service, and we have arrived at the opinion that we will be far ahead of the game by owning our own equipment. We have inserted an article in the warrant requesting monies to purchase the hardware, software, and consultant services necessary to get started. We plan to start by computerizing our listing of property owners together with the information necessary to create the blotter book, tax warrant, and tax bills. This will, in effect, replace our present addressograph system which is out of date, cumbersome, and restricted in its versatility when compared to a computer. Other projects will eventually include check lists, an inventory of town property, income and expenditure ledgers, and resident tax lists.

Each year the state compares actual property sales within the town to the assessment placed on the property to arrive at an equalized valuation percentage. This figure represents the average assessment on the property as a percent of the market value. This year we have dropped to seventy-four percent. This figure is used in conjunction with our total town assessment to determine an equalized valuation. This equalized valuation is then used when comparing Fitzwilliam to other towns in determining such figures as our share of the county tax expense, and the school bond repayment.

A committee has been working for two years to arrive at a solution in regards to facilities for the fire department and police department. It appears to this board that there is no solution agreeable to all parties directly involved. The committee has suggested a combination building replacing the present village fire/police station. This is a very expensive solution, and in our opinion not advisable. During 1983, the committee presented their original plan to build a two bay

fire station in the village area, and remodel the present building for the police department. The board of selectmen would like to suggest we return to their original concept. We have suggested that an option be obtained on suitable property for the fire department. The budget committee recommended, and we concur, that rather than just an option, we should proceed with purchase of suitable property, and the preparation of plans for action during 1986.

During the last two years, we have issued approximately 50 building permits each year. The board would like to remind everyone that a building permit is necessary for all new construction, major remodeling and renovation, as well as installing mobile homes and other manufactured housing. Building permits are not required for maintenance and repair projects. If you have any question concerning the need for a permit, you should contact the board. In issuing permits it is our intent to enforce both local and state ordinances. On this subject we wish to go on record as opposed to any issuing of any permits on Class VI highways. In past years, there has been a question concerning lot size, and the number of residences per lot. We have reviewed the zoning ordinances, and it is our position that no building permit can be issued on an undersized lot without a variance. Further, we will allow only one residence per lot without a variance.

Solid Waste has been an ongoing problem for many years. The problem is not only an economic one, but an environmental one as well. The legislature, recognizing the fact that individual towns are generally unable to arrive at an acceptable solution to the problem on their own, has mandated regional planning districts. We have been involved with twenty-two other towns, and the City of Keene, in such a district. This district has proposed a waste-to-energy plant, and has signed an intent to negotiate agreement with Consumat Systems, for establishing the facility. Consumat would build and operate the plant, burning waste to generate steam which would, in turn, generate electricity. We would enter into a long term agreement to supply waste, and Public Service Co. would purchase the electricity. A proposal has been made to establish a so-called 53-B District, made up of several municipalities which in turn would be our bargaining agent in negotiating with Consumat Systems. The board recognizes several good reasons for the establishment, and our participation in, such a district. We also recognize possible pitfalls in the district. At this time, it would appear that there are adequate protective measures should we join. The decision to join is on the warrant this year. We recommend approval.

Board of Selectmen
Town of Fitzwilliam, New Hampshire

We have examined the financial statements of the various funds and account groups of the Town of Fitzwilliam, New Hampshire, for the year ended December 31, 1984, and have issued our report dated February 13, 1985. As part of our examination, we made a study and evaluation of the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such an evaluation is to establish a basis for reliance on the system of internal accounting control in determining the nature, timing, and extent of auditing procedures that are necessary for expressing an opinion on the financial statements and to assist us in planning and performing our examination of the financial statements.

The establishment and maintenance of a system of internal accounting control is an important responsibility of Town officials. The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the evaluation of these factors necessarily requires estimates and judgments.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally with respect to the estimates and judgments required in the preparation of the financial statements. Further, projection

of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

The study and evaluation previously described was made primarily for the purpose of performing an audit in accordance with generally accepted auditing standards. It would not necessarily disclose all weaknesses in the system because it was based on selective tests of accounting records and related data. The study and evaluation did not disclose any weaknesses which we consider to be material. The recommendations which follow were developed from our observation of the Town's operations. They are not the result of a special study.

YIELD TAX ESCROW ACCOUNT

The Town's separate escrow account contains a cash balance which is considerably higher than identifiable deposits. We were unable to reconcile individual Yield Tax escrow transactions in all cases.

While these conditions do not significantly affect Town operations we believe that the Board should make an effort to identify excess cash in the account and transfer any balance to the General Fund. We also recommend that a separate log of Yield Tax escrow activity be maintained by the Selectmen.

GENERAL FUND BANK ACCOUNTS

We noted that the Town has General Fund deposits in several separate bank accounts. In order to simplify the Treasurer's monthly bank reconciliation procedures we believe that those accounts which are relatively inactive should be discontinued. Funds deposited in those accounts would also be available to earn a higher rate of interest.

We found many examples of sound business management practices in our review of the Town. We wish to express our appreciation for the cooperation we received from Town officials.

Very truly yours,

Carey, Vachon & Chubb

FIREWARDS REPORT

1984 Calls

The Fitzwilliam Fire Department responded to 167 calls in 1984, a 20% increase over 1983. The calls included 3 structure fires, 15 chimney and/or partition fires, 5 car fires, 25 Mutual Aid calls, 89 rescue calls, 4 automatic fire alarm calls, 3 brush fires, 12 motor vehicle accidents, 1 civil defense call and 10 other calls including gas leaks, electrical problems and smoke investigations.

EQUIPMENT

Our equipment status is relatively unchanged from last year's report. The 1978 Ford and 1965 International pumpers continue to be in good to excellent condition. The 1978 Mack tanker has served the purpose intended by the firewards of providing for rapid delivery of a substantial amount of water. The rescue and forestry trucks are in good condition. The old tanker continues in service on a seasonal basis. As noted last year, the Village pumper/reel truck continues in service, however, mechanical problems are being encountered, and this unit will soon need replacement.

TRAINING

In 1984, several members of the original group of FMT's in the department did not get recertified. However, to overcome this situation, the department will hold a so called first responders course in the winter of 1985 to give more members basic training in the rescue field and allow us to have an adequate group of personnel to handle a majority of rescue problems until the ambulance arrives.

Aside from rescue training, the department continues to hold drills each month and selected fire and rescue topics, and many of the members are continuing to take courses at Meadowood in the spring and fall fire schools.

1985 WARRANT ARTICLES

As with the past few years, there will be a special money article in the warrant for protective equipment. We ask your continued support for this type of article to secure adequate equipment for each member.

There will also be a special money article for a capital reserve fund for the fire department. As noted in the equipment section, the Village Ford pumper/reel truck will soon need to be replaced. In addition, the firewards feel that there ought to be a reasonable savings plan in place, as in past times, for the routine replacement of frontline vehicles and equipment as necessary. We

expect to come in with a proposal for a new reel truck in 1986 if the mechanical condition of the Village truck continues to deteriorate.

Some of you will recall that in 1983 a committee was appointed to study the Village fire/police station issue. The committee filed a report in the 1983 annual report. It is expected that the committee will also file a report for 1984 indicating that the estimate for the combined building finally secured from a local contractor was beyond what the committee thought the town could afford. In addition, a majority of the Board of Selectmen was not behind the project. Accordingly, the Budget Committee and Selectmen suggested that the issue be kept active with a proposal to raise and appropriate the sum of \$15,000.00 in 1985 for the purpose of site acquisition for a new fire station in or near the Village. Although no firm proposals have been received or considered, the firewards encourage keeping the issue under consideration since the present Village station is inadequate for both departments, and some action is going to have to be taken.

MEADOWOOD

The Meadowood County Area Fire Department continues to offer its fine service to the Town of Fitzwilliam both through the availability of firefighting equipment, and its excellent training facility. We would ask your continued support for the annual town appropriation which goes to the membership to support its operational expenses, and we also encourage townspeople to continue to support the Board of Directors annual membership drive, as well as the present capital fund drive to complete the new structural firefighting building.

Respectfully submitted,

Edwin O. Mattson, Jr., Chief
William N. Prigge, Assistant Chief
Winston A. Wright, Deputy Chief

POLICE DEPARTMENT REPORT FOR 1984

Police activity in 1984 remained relatively consistent with little drama. Perhaps the most startling of the facts in this report are those involving our young people. All the sexual offenses reported in 1984 involved young victims, as did both of the attempted suicides reported to us. These reports may well be due to the increased attention placed on abuse today, and might not otherwise have been reported. If you suspect someone is a victim of abuse, please report it - anonymously or not; we must not ignore our children.

Sixty-seven traffic accidents were reported, for which causes were nearly evenly divided. One third of the accidents were due to road conditions, driver violations, or other causes (inattention, sleep, etc.) respectively. Only twenty-one percent occurred on town roads, with Route 119 leading Route 12 slightly as the most accident prone of the state highways. Seventy-five percent of these accidents were limited to property damage only. The most serious of traffic accidents was a fatality in which a lady motorcyclist was killed in a collision on Route 119 West.

Overall, we received 1,272 calls for service, of which 166 were animal related. 53,484 miles were traveled on our two cars. We made 1,895 property inspections in our continuing Crime Prevention Program, conducted 105 investigations, made 56 custodial arrests, and stopped approximately 651 motorists. If you have the misfortune of being stopped for a traffic violation, you may have the good fortune of getting a warning. We are now issuing written warnings, to provide a lingering reminder to obey the rules of the road. Please drive carefully and lawfully.

Ninety-six of the investigations we conducted were for bonafide crimes, and we cleared sixty-three percent. Eleven percent were felonies, and seventy-seven percent were misdemeanors. Though we have initiated prosecution of more persons, dispositions were reached in 219 cases involving 136 defendants. Fifty-three percent were for traffic violations, and the remainder were for misdemeanors or felonies.

A special appropriation requests funds to purchase a new traffic radar. The current one is over 11 years old. We are eligible for matching funds from the New Hampshire Highway Safety Agency to purchase a new radar, and the amount requested represents our share of the purchase price. The purchase is dependent, of course, on the success of the grant application.

Two full-time officers left the department for other jobs, and were replaced promptly with little interruption to our operations. This appears to be a plight of a small community unable to compete with other employers. In spite of this, we continue to have a dedicated staff of well trained officers that you can take pride in; I certainly do, and thank them for their continuing integrity and service.

This, my tenth year as your police chief, affords me an opportunity to reflect on the changes I have seen, with two areas of particular interest. First, police work has changed considerably in a relatively short time. No longer can the local cop break up a disturbance, check someone suspicious, or make an arrest without triggering an avalanche of legal issues, designed to prevent the government or police from infringing on citizens' rights. This has required us to devote time to record keeping, and to stay up to date in a rapidly changing legal field. Dumb cops are a thing of the past. Rather than be intimidated by this legal system, we have developed with it, and have learned to use it effectively to our advantage. Second, Fitzwilliam remains a nice community because of the relationship between the people and the police department. Some time ago, it looked certain that crime and disorder would dominate our town. You responded with a commitment and cooperation, and together we can take credit for our town being what it is today. I hope that in years to come we will be able to do even more to keep Fitzwilliam a nice town to live in.

The 1984 Town Meeting authorized the purchase of a police car. Though it was ordered properly, the factory was unable to fill the order. Meanwhile, the engine in the current car needed replacement, and the new car order was cancelled so that we could get more value from the repair. We recently ordered the new car, and have found the new price to be somewhat higher than last year's. This has necessitated the article in the warrant requesting \$800.00 to accommodate the increase.

Planning for a new fire department substation and new police quarters has been going on for some time. The needs of the police are not extravagant, but we do need first floor access and more appropriate space, to afford privacy in particular. The Building Committee has been very active, and has tried to accommodate all interested parties in its two years of existence, and deserves our thanks for its hard work.

You may have noticed, if you've called the police, that we may have called you back to let you know the outcome of the call. Of course, we aren't always able to be specific, and are not always able to call you back. We feel that giving you feedback encourages you to get involved, and we will be continuing this experiment in hopes of being able to do it all the time in the future.

On behalf of the police department, my thanks to those persons and agencies who helped and supported us in 1984.

Respectfully submitted,

Kurt F. Schimke
Chief of Police

FIRE AND POLICE DEPARTMENT BUILDING COMMITTEE FINAL REPORT

The Building Committee was extended another year by a vote at 1984 Town Meeting in order to present a recommendation to the Town for a combination Fire and Police Department building. The committee met during 1983- 1984 in order to present this proposal at the 1984 Town Meeting, but the final plan was not complete at that time.

After considering all possible alternatives, and debating the good and bad points of each plan, the committee recommends that the Town build a combination building on the present Eagle Building site next to the Town Hall. The features would include the following:

1. A two-bay Fire Station, capable of holding two modern engines.
2. A complete Police Department facility.
3. A depository for town records (vault).
4. A conference room.
5. Potential for a stand-by electrical generator for emergencies.
6. Potential fire pump, tied into a sprinkler system for the Town Hall.

The plan met all goals of the Fire and Police Departments, and the Committee. Plans were drawn up by architect Charles Roy, and sent out for estimates to three contractors. Only one estimate was received, coming in at \$246,000. Adding the architect fees brought the final cost estimate to \$275,000. This proposal was not forwarded to the Budget Committee.

The goals of the committee were to advise to the Town the best possible plan to meet the needs of the Town concerning a Fire and Police Department Building, with a 15 to 20 year growth taken into consideration. This report finalizes the committee's activity.

Respectfully,

Fitzwilliam Fire and Police
Building Committee

HIGHWAY REPORT

The Highway Department has been very busy this past year.

Two pug mixes were made for patching and skimming last year, with the remainder to be used this year for the same purposes.

Ditch work was done on Putney Road and Rockwood Pond Road with a Grapple.

Regular spring and summer work was done with tree cutting, brush cutting, replacement of culverts, and hauling of gravel for use on many of the roads in town.

Rockwood Pond Rd., South St., Warren Hill Rd., Tap Mountain Rd., Rhododendron Road, Pierce Rd., Columbian Rd., and Brigham Hill Rd., all received gravel to help make them better for travel.

The condition of Rhododendron Road was improved with the removal of a great many rocks from the road, and ditch work that was done on that road.

Grading was also done on many roads throughout the town.

Due to the high waters this past spring, Templeton Turnpike Road was closed for a time. It took 800 yards of fill being hauled into this road before it could be reopened.

The bridge on Templeton Turnpike Road was also extensively damaged and had to be replaced. A private contractor was hired to do the major work with the Highway Department assisting when necessary.

The loss of two workers from the Highway Department this last spring slowed down the progress of the Department, but we do feel that it was a fair year.

James Dunham

LIBRARIAN'S REPORT

Library circulation in 1984 totaled 8,634. We acquired 353 new books, and discarded 173. This brings the total number of volumes to 13,022.

Gifts in memory of Mary Gartner purchased: 1 book. 3 books were purchased for the Mamie Roche Fund, and 2 books were purchased in memory of Tracy Krunklevich.

Once again, due to the Alice Cleveland Fund, which purchased 84 new books in 1984, the Friends of the Fitzwilliam Library have aided us in non-book ways. This past summer, we had the downstairs of the Library carpeted, with the Friends, and our Marguerite Davis Fund, contributing to the cost. Other repairs included the repainting of the front room ceilings, and the repainting of the chimney. The Library, while retaining its original charm, has been brightened and, (we hope) made more comfortable in our ongoing renovations.

In addition to helping pay for the carpeting, the Friends sponsored the March and August months of juvenile films, the storytelling celebration for National Library week, and the musical February and November teas. They also organized the summer book sale, and an afternoon book discussion group. We are still trying to make up for the defunct State Library bookmobile service with increased purchases and with Interlibrary loans. So far, we seem to be filling the gap satisfactorily.

Other events held in 1984 included summertime story hour for the younger children (as well as the bi-weekly preschool storytime), and puppet-making for the older children. In all, 344 children attended story times, 137 children attended films, 16 children attended the puppet-making workshop, and 20 attended the storytelling by Gail Talbot.

I attended a Library Techniques course through Keene State College last fall on the selection of Library Materials.

Projects this year included the weeding and the reorganization of the youth room (with a new set of science encyclopedias added to the collection), and the assimilation of the leftover state books.

Volunteers who have been of help to me this year are Judy Hancock, Harriet Underwood, and Dorothea Crowley.

Respectfully submitted,

Susan M. Massin

FITZWILLIAM DISTRICT NURSING ASSOCIATION, INC.

Home Health Care & Community Services has, for three years, provided nurses, home health aides, meals, therapy, and child maintenance in 40 southern New Hampshire communities. Each year our town appropriates money, on a per capita basis, to this organization for professional services. Staff members drive to Fitzwilliam, as needed, from either the Keene or the Peterborough offices. Residents should call 532-8353 for information regarding home health care. It is important to ask one's physician to provide the Home Health Care & Community Services office with specific orders for health care. The visiting nurses carry out physicians' orders in the home as they might in a hospital or nursing home.

A lot of changes are taking place in health care. The field of home health care is growing to accommodate changes in institutional care. Patients are being discharged earlier from hospitals. The visiting nursing associations are training their staffs to provide a wider range of services within the home. Patients, and their families, are being taught to provide more of the health care needed to maintain patients at home rather than in the clinical atmosphere of hospitals and nursing homes.

Fitzwilliam has had a volunteer visiting nursing association for several decades. Locally, we hold a monthly blood pressure clinic at the Town Hall on the 2nd Wednesday between 2:00 and 4:30 PM. All are welcome, and appointments are not required. Hospital beds, commodes, wheelchairs, walkers, crutches and canes are loaned to residents. Rides are provided for those needing medical appointments in Jaffrey, Peterborough, Keene or Gardner. Annually, each fall, many volunteers begin the Christmas Baskets Program which is a very successful way of remembering community members in need of attention at holiday time. Names and phone numbers of people managing individual programs appear in The Fitzwilliam Newsletter.

PLANNING BOARD REPORT

After spending many hours rewriting the subdivision regulations that were passed in 1970, and after obtaining helpful guidance from the Southwest Region Planning Commission, the new subdivision regulations were passed at a hearing in November. A copy of these regulations are in the Selectmen's Office, and may be referred to by anyone interested.

The Planning Board reviewed seventeen requests for subdivisions this year, some of which are still to be resolved.

Dick Rees and Katie Metzger were re-elected to the Planning Board, and Dan Stark and Charlie Massin were appointed as alternates.

All of the Planning Board meetings are open to the public, and townspeople are urged to attend, especially when the subdivision under consideration affects you as an abutting landowner.

Planning Board meetings are on the first and third Monday evenings at 7:00 p.m. at the Town Hall.

Respectfully submitted,

Katie Metzger, Chairman

CEMETERY COMMISSION REPORT - 1984

Following the duties prescribed for this Commission - the two cemeteries, Village and Pine Grove, have been regularly mowed and trimmed with special preparation for Memorial Day.

Grave sites needing special attention were repaired and put in proper shape.

Special treatments of lime acid grass seed were applied this fall.

These duties were accomplished within the specified budget.

Respectfully submitted,

Edward P. Strobridge

SPORTSFIELD COMMITTEE

The committee to develop a ball/sports field met six times. A surveyor was hired to do a topographical map of the field. He charged and was paid \$256.00 (the first surveyor we contacted quoted us a price of \$500.00--for the same job). Using this information from the map, we will contact various construction companies to get figures on how much it will cost for rough fill, and loam. We sent for, and received, various blueprints for laying the Sportsfield from the State free of charge. We plan to complete this study in 1985.

Respectfully submitted,
